## Class Of '41 Beats Frosh In Field Day

Score Ten To Five; Sophs Defeated Only In Crew Race

### MANY LOSE CLOTHING

In one of the closest finishes in years, the Class of '41 won the annual Field Day Friday by the score of 10 to 5, the result being undetermined until the last glove of the Glove Fight was counted.

Up to the Glove Fight the Sophomores were leading 7 to 5, but as the Glove Fight counted three points, the frosh could still win. In spite of the much greater number of freshmen, the sophomores took the event by the score of 206 to 202, a margin of only four gloves.

#### Freshman Crew Wins

At seven-thirty the morning of Field Day the freshman crew upset all calculations by defeating the Sophs by two boat lengths. Although they thus gained an early lead, they were unable to hold it later in the day.

In the relay race, after both teams had fumbled the baton once in the first few laps, the frosh team pulled up to a comfortable lead of about ten yards when, while passing the baton, one of their men dropped it.

### Prom Committee Nominations Out

Elections To Be Wednesday For Senior Week And Class Day Marshals

Issued late last night to The Tech, the nominations for Senior Week, Senior Class Day Marshals, and Junior Prom Committee follow in the first official listing for the committees. The elections will be held Wednesday.

Senior Week nominations:

Laurence Perkins  
Richard S. Leghorn  
Morris E. Nicholson  
Dudley H. Campbell  
Gordon A. Pope  
Donald Waterman  
Frederick A. F. Cooke  
William E. Haible  
Peter M. Bernays  
Woodson Baldwin  
Nicholas E. Carr, Jr.  
George Mitchell  
Whitthrop B. Reed  
Nathan Kulbersh  
Sydney S. Gesner  
Gus M. Griffin  
Leonard Mautner  
William F. Pulver  
Aaron M. White  
Leigh S. Hall, Jr.  
Oswald Stewart  
George W. Beer  
Maurice Meyer  
Robert Casselman  
Robert J. Saunders  
B. C. Emerson

(Continued on page 2)

Nominations

### A.I.E.E. Will Present Talk on Light Sources

Mr. R. G. Slauer, lighting engineer of the Westinghouse Lamp division, will give a demonstrated lecture on "New Light Sources", on Thursday afternoon, November 3, at 4:30 P.M., in room 10-275.

The lecture will be held under the auspices of the M.I.T. Student Branch of the American Institute of Electrical Engineers, and the speaker will treat both incandescent and gaseous discharge lamps. The meeting will last about an hour and will include ample time for questions by the audience on any of the points discussed.

### Senior Rings Displayed In Main Lobby, Nov. 1-4

Senior rings will be on display in the Main Lobby from the first to the fourth of November. Seniors and graduate students are advised to take this opportunity to place their orders. W. C. Pulver, chairman of the Ring Committee, states that the selection will include a great variety in price and quality. An order placed now will insure delivery before Christmas vacation.

### The Tech To Hold Poll On T.C.A. Tomorrow, 9-5

#### Four Questions On T.C.A. Drive Asked Of Students By School-Wide Poll

Four questions pertaining to the current T.C.A. Drive will be asked of the student body in a school-wide poll to be held by THE TECH in the Main Lobby tomorrow.

Results of the poll, which will be published in Friday's issue of THE TECH, will show the combined opinion of Tech students on the following questions:

1. Have you ever contributed to the T.C.A.?
2. Have you contributed or do you plan to contribute, this year?
3. Do you favor the Tech-in-Turkey plan?
4. Do you favor the way in which the drive is conducted?

All students are urged to vote in the poll in order that a representative campus opinion on these questions may be obtained. Hours for the poll are 9 to 5 on Wednesday.

### Monroe Wins Football Tilt Over Runkle By Safety

By the margin of a safety Monroe squeezed into the quarter finals of the football championship sponsored by the Beaver Key Society when they defeated Runkle 2-0 last weekend. Two other teams have also reached the quarter finals, Phi Gamma Delta by defeating Bemis 13-6, and Sigma Alpha Epsilon by shutting out Phi Beta Epsilon by the score of 13-0.

In an earlier round Kappa Sigma won by a score of 13-0 against the Student House team, and Phi Mu Delta trounced Beta Theta Pi 32-13. Kappa Sigma and Phi Mu Delta will fight it out for the last berth in the quarter finals.

Up to the quarter finals every team receives one point for each game played. The four remaining teams will play a round robin to determine the champion. In this round the winner of each game played will be credited with ten extra points besides the regular single point.

### Tech Sailors On Top Again

#### Colie, Olson And Hanson Pile Up Total Of 70 Points

M.I.T.'s star sailing team, Runyon Colie, '40, Herman H. Hanson, '39, and C. Eric Olson, Jr., '39, emerged victorious again in Sunday's Boston Dinghy Club Regatta in which 26 colleges, the largest number ever to participate in an intercollegiate sailing meet, entered crews. This makes the fourth victory for the Institute helmsmen out of six regattas.

The commanding lead of the M.I.T. skippers, who totalled 12 points more than their nearest competitor, reaffirms the leadership of the Institute's Nautical Association in intercollegiate sailing circles. Only once has Technology come out lower than second in a regatta.

Tech leads with 70 points

Taking first place with 70 points, M.I.T. was followed by Williams with 58. Other ranking colleges were Brown, 52; Princeton, 47; B.U. 37; Toronto, 36; McGill, 34; and Haverford, 33.

Colleges which participated in the meet on Sunday were the following:

### T.E.N. Convention Held Thursday For College Magazines

#### Initial Publication Of Year Offered To Student Body Last Sunday

Playing host to the Engineering College Magazines Association last Thursday and Friday and putting out the year's first issue of their magazine yesterday kept The Tech Engineering News busy last weekend.

Composed of representatives of 17 college magazines, the convention assembled Thursday evening in the North Hall of Walker Memorial to hear Kenneth Sutherland, '22, of Sutherland-Abbot, Inc., speak on "Publishers' Representatives and Advertisers' Representatives." He brought out the fact that a publication should make a survey of the field that is offered for any advertiser.

#### T.E.N. Receives Prizes

At the same time T.E.N. received 1st place for the best illustrated magazine, 3rd place for the best cover, 3rd place for the best student-written article, which was "Far in the Sky" by Irving Pesko, '39, and 3rd place for the best editorial, "Scientists and the World."

Friday afternoon the election of new officers was held. Those elected were Tom Rogers of McGraw-Hill Co., who

### New Executive Assistant

James R. Killian

### Drive For Funds By T.C.A. Starts With Big Banquet

#### Many Speakers Are Present; Heavy Campaign Already In Progress

The first day returns in the Technology Christian Association drive show an average contribution of \$2.85 per man with six fraternities and most dormitories heard from. About sixty percent of the undergraduates contacted have contributed, although no graduates have been heard from. The drive was opened with a banquet dinner for solicitors in the North Hall of Walker Memorial on Sunday evening.

Several prominent men spoke on various phases of conducting the drive. These include Mr. Elmer Pilsbury, of the Greater Boston Community Fund, who spoke on drives in general and how to solicit contributions; Mr. Percy Zregler, chairman of the T.C.A. advisory board, who spoke for the board; Mr. Wilmer Kitchen, executive secretary of the Student Christian Movement in New England, who spoke about similar drives in other colleges; Mr. Horace S. Ford, treasurer of the Corporation, who spoke for The Institute; Wallace M. Ross, general secretary of the T.C.A., who spoke on Tech

### All-Tech Night to Raise Fund for Sick Employees

To the music of Jackie Ford and his orchestra the annual informal All-Technology Dance and Game Night will be held from nine to one Friday evening in the Main Hall of Walker Memorial.

Among the games and activities offered will be bowling, whist, and bridge, and during the evening, there will be a live turkey raffled off. Dancing will be held in the main hall of Walker Memorial and it is expected that there will be several sets of square dancing during the evening. To further entice guests to the entertainment, there will be a prize of five dollars given to the

All Tech Night

### Coach Oscar Hedlund Predicted Field Day Exactly In 1934 Will Continue To Forecast As In The Past Despite Rumors

Coach Oscar Hedlund, the official forecaster of Field Day, has a somewhat better record than the weatherman. Out of the last five Field Days he has called the winning class correctly four times.

This somewhat exemplary career of oracle was started back in the fall of 1934 when down in the offices of THE TECH one evening, he was invited to pick the winner before Field Day was over. He sat down at one of the desks, pulled out a pencil, and in five minutes had picked out the victors event by

event. That was the one time he was entirely correct in predicting a Sophomore victory of 9 to 4.

#### Slips Badly

Next year he took a mighty fall from his pedestal. The freshman class, instead of winning as he had foretold, lost instead by a score of 10 to 5. Since that time Oscar has predicted the winners correctly, but has had varying degrees of success with the individual events and total scores. In fact, it was not until this year that a final

score came out exactly as he had promised. However, the quirk to this situation was that only the relay race came out as he had said.

#### To Continue Same Forecast

At the Field Day dinner last Friday Oscar was moved to remark that he would never again predict a Field Day event by event. But in a statement to THE TECH last night he said that he would continue to predict in exactly the same manner as had been his custom in the past.

For the first time in the history of the course in Building Engineering and Construction, XVIII, there will be held a series of monthly dinner meetings to get all the members of the course acquainted with one another and with those instructors whom they will meet in their years at the Institute.

The first of this series is to take place in the Faculty Dining Room at 6:30 P.M. on Thursday, November 17. At this time Professor Howard R. Bartlett of the Department of English will speak on "Why Study English?"

Not only upperclassmen, but also freshmen in the course and all those who have expressed interest have been invited.

### Course XVII Will Hold Get-Together Dinners

For the first time in the history of the course in Building Engineering and Construction, XVIII, there will be held a series of monthly dinner meetings to get all the members of the course acquainted with one another and with those instructors whom they will meet in their years at the Institute.

The first of this series is to take place in the Faculty Dining Room at 6:30 P.M. on Thursday, November 17. At this time Professor Howard R. Bartlett of the Department of English will speak on "Why Study English?"

Not only upperclassmen, but also freshmen in the course and all those who have expressed interest have been invited.

### Killian Will Be New Assistant To President

Fassett Is Review Editor; Jope Made Alumni Secretary

#### KILLIAN'S POST IS NEW

James R. Killian Jr., '26, editor of the Technology Review and treasurer of the Alumni Association, has been appointed to the newly created post of Executive Assistant to the President, Dr. Karl T. Compton announced last night.

Professor Frederick G. Fassett, Jr., of the English department, will be the new editor of the Review, and Ralph T. Jope, '28, is to fill the post of treasurer of the Alumni Association.

Installed Jan. 1

In his new position, which becomes effective on January 1, Mr. Killian will participate in the Institute's administration and will take over some of the responsibilities which have been carried by Vice-President Vannevar Bush, who becomes president of the Carnegie Institution in Washington on the first of the year. Mr. Killian will also be chairman of the Board of Publications of the Technology Press.

For twelve years he has been on the staff of the Technology Review,

### Gridiron Inducts Twelve Men Soon

#### Two From The Tech Invited Into M.I.T. Journalistic Organization

Gridiron, the honorary society for all M.I.T. publications, has announced the names of several new members who are to be inducted into the organization soon. Each year six staff members from each Tech journalistic enterprise are selected, usually during the latter half of their Sophomore year or at the beginning of the Junior year, to represent their respective publications in the society.

The following are those who have been received into Gridiron this fall:

Voo Doo—William B. Hailey, '40, Charles V. F. DeMailey, '40.

Tech Engineering News—James S. Rumsey, '40, Eugene E. Crawford, '41.

Technique—Karl Pfister, 3rd, '40; Donald W. Ross, '40; John R. Gray, '40; Joseph D. Havens, '40; Richard W. Cobean, '40; Joseph G. Mazur, '39.

The Tech—John G. Burr, Jr., '40, Wylie C. Kirkpatrick, '40.

These men will be initiated at a banquet for which a date and place has not yet been ascertained.

## OUR FRIENDS

## UP IN THE WORLD

Among the big events of the year may be grouped the recent advancements in the administration of the Institute and The Technology Review, and we wish to be among the first to congratulate men who have been invaluable advisors to us and who, we feel, have been chosen for posts which they are most capable of filling. Although they will not take office till next term, it will be with great pleasure that we can look upon them in the light of their new offices.

Specifically, the elevation to more responsibility of J. Rhyne Killian, Jr., is a tribute to the manner in which he has fulfilled his duties as Editor of The Technology Review, and his replacement by Professor F. G. Fassett, Jr., demonstrates that ability to write and to carry responsibility are not swallowed up in the daily operation of Institute life. Although the position of Alumni Secretary may not carry with it as much daily routine and prestige as those mentioned above, Ralph T. Jope who was appointed to the post may feel justly proud that he has shown himself to be an expert in business and financial affairs.

All three of these are men whom we feel we know and understand, and for whom we have a great deal of respect. That men as close to the students as these should hold the most responsible positions demonstrates the tremendous strides that have recently been taken toward humanizing the Faculty and recognizing true interest in the students and their projects.

## BREAKING GROUND

## ATHLETIC CENTER

As the Institute announces that it is open for bids for the construction of the new field house which is to accompany the new track and field facilities on the west side of Massachusetts Avenue, the ground is virtually being broken on one of the greatest extensions of athletic facilities which Technology has ever known.

Although the 1937 business recession had the effect of cold water thrown on the newly-launched gymnasium drive, it appears that not all alumni felt the pinch of hard times, since nearly \$300,000 now stands ready for starting construction on the mammoth project which is to include a million-dollar gymnasium on the present site of Tech field.

In spite of the fact that The Tech, at the time of the first announcement of the Institute's \$12,000,000 expansion program two

years ago, felt that auditorium or little-theater facilities should take precedence over the construction of a new gymnasium, it was willing to abide by the findings of the two alumni committees which investigated the needs of the Institute and by the final decision of the alumni and Corporation that a new gymnasium was the greater need.

Indeed, we can see many ways in which the projected extension of athletic facilities here might be of great benefit to the general welfare of the school. With the tuition taking a 20 per cent jump this fall, which, incidentally, cannot easily be seen compatible with the general nation-wide increase in purchasing power, may give students and prospective students the feeling that they will be receiving more for their money.

Furthermore, large athletic centers in American colleges are in tune with our times, many campuses being little more than modest housing and classroom facilities built around a glorified athletic centers. Although Technology has always made it clear that athletic activities should never take more than a secondary part in the technical education of a student, it is certain that the ending of our deplorable facilities of the present would be far from a poor advertisement for the school. It has long been a thorn in the side of the sports-conscious Technology alumnus to have to face such questions as "What does Tech do in sports?", "Does Tech have a swimming team?", or "What is wrong with the M. I. T. basketball team?"

## LETTERS TO THE EDITOR

*Editor's note: We regret that we were mis-informed by a member of the T.C.A. cabinet on a few minor points that we stated in an editorial last week. Although there was a possibility that the Tech in Turkey plan might have been acceptable if the T.C.A. only furnished \$400 Robert College asked for \$1,000. Also, the letters to the parents contained a sentence in the middle of the last paragraph stating that a drive had been held among the students, and were not intended to be misleading.*

*Although we feel that these points do not bear directly on the question of whether the T.C.A. should support this enterprise, we are glad to correct our errors.*

To the Editor:

Because I am confident that "The Tech" would not intentionally misrepresent the facts and because I am confident that the editorial which appeared in yesterday's issue regarding the "Tech-in-Turkey" project was based upon incomplete information, I feel compelled to correct what is clearly a misapprehension on the part of your editorial writer.

I happen to have been familiar with the "Tech-in-Turkey" project almost from its inception and wish to point out that the amount of \$1,000 in this year's budget is the smallest amount allocated to this project since it was first begun. The statement in your editorial to the effect that Robert College asked for a contribution of only \$400 is, therefore, somewhat misleading—what Robert College actually said, at the time plans were being formulated to resume the project a year ago was that they were so convinced of the value of the undertaking, that if Technology could not raise the full amount of the budget (\$1,000), they would try to raise a portion of it themselves.

In other words, Robert College said that in addition to furnishing board and room for our representative (which they have always done and are doing now), they would try also to provide the salary of \$600 if Technology could raise enough (\$400) to pay the man's travelling expenses to and from Istanbul.

The members of the T.C.A. felt, naturally enough, that the "sporting" thing to do was to try to raise the full amount if they possibly could. In this connection may I point out that similar projects have been undertaken for many years by other college Christian associations. For example, Yale is raising \$6,500 this year for "Yale in China," Amherst is raising \$1,700 for "Amherst in Japan" and Smith is raising \$1,400 for "Smith in China."

The value of the project itself has been confirmed not only by officials of Robert College, but also by a large number of individual students who have come to Technology from Robert College. As you know, of course, Robert College is one of the outstanding institutions of higher learning in the Near East and attracts students not alone from Turkey but from all the neighboring countries as well. In consequence, its influence and the influence of "Tech-in-Turkey" are felt not only in Turkey but throughout the Balkans and the Near East.

FREDERICK R. HENDERSON, '32

To the Editor:

Supplementing my letter of October 29th regarding "Tech-in-Turkey", I find I was in error on one point. I stated that Yale was raising \$6,500 this year for "Yale-in-China"; this amount should have read \$3,500.

FREDERICK R. HENDERSON, '32

## Field Day

(Continued from Page 1)

The Sophomores then went on to an easy win.

## Football Game Tied

Honors in the football game which was fought to a scoreless tie went to the freshmen who never allowed their opponents to get past the twenty yard line, while twice threatening the Sophs from the five yard line.

After a long back-breaking first pull in the tug-of-war, which was won by the Sophomores, the freshmen came back to win the second, but were easily defeated in the final pull.

## Field of Glory

Although the avowed purpose of the Glove Fight was to relieve the opponent of his glove, it appeared that many of the warriors mistook glove for pants. Not less than five contestants were seen leaving the field with their trousers in shreds, while one man was completely stripped of everything except his shoes.

While the majority of the members of '41 and '42 were engaged in tests of brawn on the athletic field, a small group of five skippers from each class engaged in the more subtle sport of dingy racing on the Charles. The freshmen emerged victorious by the close margin of 121-93 points for the four races. The Sophomore crew consisted of Levil, Welch, Lison, Tyson and Kolk; while Coe, Seeley, Watkins, Lewis and Carleton represented the freshmen. Although the series did not count on the field day score this year, there was considerable interest shown, and the sailing enthusiasts, now numbering well over four hundred, hope to make this race a part of Field Day next year.

## Banquet Held

In the evening in Walker Memorial the fighting members of both classes cheered each other for the first time at the Field Day Banquet. Master of ceremonies was Joseph Lewis, '26, Olympic Fencing star. The heads of the teams spoke a few words, the coaches took their bows, and the Field Day Cup was passed from hand to hand to symbolize the good fellowship which prevailed.

Professor Owens of the class of '96 addressed the group and the last activity of the Field Day was officially closed with the singing of the Stein Song.

## Reviews and Previews

LIGHTNIN'—The Lightnin' which struck the Colonial last night was the sort of bolt that left the audience that had come to see Fred Stone's Bill Jones pleasantly electrified. John Golden's revival of Frank Bacon's classic is warming in its homespun sentiment and wholesome comedy. Here is no rapid-fire succession of sophisticated witticism, but a reserved, permeating humor that comes to a brilliant climax in an unforgettable courtroom scene. As Fred Stone said in his curtain speech, "This is the sort of play the children can safely take their parents to see."

Stone's "Lightnin'" was, of course, superbly done. We particularly liked Mrs. Morrison's touching portrayal of "Lightnin's" wife, and Walter Gilbert's characterization of Judge Townsend, a jurist who finds time to fall victim to the charms of Mrs. Davis, young divorcee whom he has previously renovated. Well cast as the city slickers who attempt to steal the Jones' hotel are Charles Collins and Franklyn Fox. The three sets designed by Cirkler and Robbins provide an authentic rural background for the California-Nevada locale. Put your slide rules and steam tables away, for the evening spent seeing Lightnin' will cure your brown-bag blues. R.T.W.

SYMPHONY—A busy week for the Boston Symphony starts Thursday evening when a concert including Haydn's Symphony in D major, No. 86, Loefler's "A Pagan Poem," and Beethoven's Fifth will be given in Sanders Theatre. The weekend series in Symphony Hall will feature the appearance of Ernst Krenek, who will be soloist for his new piano concerto. The first two numbers listed for the Thursday concert will be given at this series also. Heifetz' recital on Sunday will include Bach's Prelude, Brahms' Sonata in D-minor, Paganini's Concerto and American Group, and Tchaikovsky's Valse and Sihorzo.

PHOTOGRAPHER HAS FIELD DAY OF HIS OWN

Harriers Victors  
By One Point In  
Triangular MeetTeam Balance Is Big Factor  
In Varsity Victory;  
Frosh Lose

Victors by one point over Northeastern and Tufts, the varsity cross country team scored their second win of the season in a triangular meet at Franklin Park Saturday. At the same time the freshman squad finished ahead of Tufts frosh but were beaten by Northeastern.

Team balance rather than any individual star was responsible for the victory. Tufts and Northeastern placed two men each in the first four places but the next five, with the exception of a tie for seventh position, went to Tech.

## Teamwork Won the Meet

Captain Dan Crosby, '40, led his team across the finish, closely followed by Parke Toolin, '39, then Stanley Backer, '41, battled down the home stretch to a dead heat for seventh place with Lockerby of Northeastern, splitting the point which could have caused a tie. Ed Lemanski, '40, and Lester Gott, '41, came in ninth and tenth to give Tech the lead with  $37\frac{1}{2}$  points. Although he did not score, Jack Wallace, '41, proved the value of teamwork by taking twelfth place ahead of the final scoring Northeastern man, again preventing a possible tie score. Tufts, also bunched, was too late to take advantage of its first two places. Larry Turnock, the final Tech runner was still ahead of Northeastern and Tufts men. The final score was Tech:  $37\frac{1}{2}$ ; Northeastern:  $38\frac{1}{2}$ ; and Tufts: 48.

## Freshmen Take Second Place

Gow and Brady of Tech placed third and fourth respectively in the freshman race but Northeastern frosh still managed to win by a safe margin: 24 to Tech's 45 and Tufts' 55.

## To Edit Technology Review

Professor Frederick G. Fassett, Jr.

## Receives New Post

Ralph T. Jope

## Promotions

(Continued from Page 1)

having been assistant managing editor, managing editor, and since 1930 editor.

## On Publications Council

During this period he directed the editorial activities of the Technology Press, and for the past six years has been chairman of the Advisory Council on Undergraduate Publications. He is a member of the corporation visiting committee of the Department of English and History, and is a special lecturer on publishing at Simmons College.

Mr. Killian is permanent secretary of the Class of 1926. While a student he was editor of THE TECH.

## Fassett Here Since 1930

Professor Fassett joined the Institute staff in 1930 as an instructor, became an assistant professor four years later, and was made an associate professor last winter. Since 1934 he has been chairman of the first year instruction in the Department of English, and has served as a member of the committees on revision of curriculum, first year instruction, and admissions. He is also a member of the Advisory Council on publications.

Professor Fassett graduated from Colby College, and engaged in graduate studies at Colby, the University of Maine, and Harvard University. He is the author of "A History of Newspapers in the District of Maine from 1785 to 1820", "Practical Writing", and "Studies in Reading", the last two in collaboration with Professor Paul C. Eaton.

Mr. Jope is secretary of the Advisory Council on Athletics and permanent president of the Class of 1928. During his undergraduate years he was president of the Senior Class, president of the Institute Committee, vice-president of the Junior Class, and a member of the debating team.

He joined the staff of the Technology

## T.E.N.

(Continued from Page 1)

succeeded Richard W. Beckman, Professor at Iowa State as Chairman, and Professor Frederick J. Fassett, Jr. of the Institute's Department of English and Professor H. C. Richardson of the Technical English Department of the University of Minnesota, who were placed in the vice-chairmanship.

## New T.E.N.

The T.E.N. which appeared on the stands yesterday contained an article, "Ursa Minor," by E. A. Dockstader, chief structural engineer of Stone & Webster Engineering Corporation, on the construction of the new Architectural Building. This was followed by an article, "Technicolor," the author of which was Dr. Herbert T. Kalmus, President and General Manager of Technicolor Motion Picture Corporation and Technicolor, Inc. There were also two contributions on paper and plastics by Walter E. Morton, Jr., '41.

Review in 1928 as circulation manager, and has been business manager since 1929.
